71	**TRISHANJIT GAN**	17	18	12	17	12	39	35	32		31		**213**

Number/Marks: 20*5 = 100 (Kihons), Others – 50; Ido Kihons, kata, Kumite, Q&A: 4*50= 200, Kumite above 7th Kyu Written – 150 (above 5th Kyu Only)		
Pass Marks	**50% for 9th to 5th Kyu**	**(Have to pass in every section and in total also.)**
	60% for 4th & 3rd Kyu	
	70% for 2nd & 1 st Kyu	

FEEDBACK :-

Dear students,

Congratulations to you all for making positive result in the last kyu grading test dated 27th April 2024 and 28th April 2024. If you go through the marksheet, you will find a section called "others", number given in that section belongs to your attendance in class, attaining of SHUBUKAN seminar and camp especially on state level and national level, discipline, courtesy, dedication, and physical strength. From next gradation this section will be divided in various part and every part will be dedicated by fixed marks.

Now we will evaluate remaining section. **Number one Stance/ Dachi**: Almost every student having problem in dachi. Basically, they do not maintain the stance for long time, remember stance is not only for strong karate, it is also helps to build strong legs. In Okinawa there is a saying, "**If your posture is bad, your karate will also be bad." (Shiseigawarui to karate mo waruku narimasu.")** During exam I noticed most of the students are not maintain exact posture. And only a few of them are doing good. As example **Barsha Karmakar and Trishanjit (no 69 & 71)** was dedicated to the maintaining of stance.
Number two Punch/Tsuki: The basic problem is in punch lies in its target fixing and generating power. Most student having problem in making a powerful fist. A loose fist can't make it effective, weak fist are just like a sword made of paper! I advise student please understand the basics of fist making to create a rock-hard punch, and please repeat fist making exercise every day. And last suggestion is, please train your finger muscle by using available instrument. **Barsha and Riddhima** having nice fist power according to their belt.
Number three Kick/Keri: Dear students, Shubukan Shorin Ryu karate is designed to be effective in extreme self defence situation. We use kicks like a sharp, powerful arrow. Our main kick is Mae Keri or front kick using Toe or Tsumasaki. Number in the marksheet given as per your Mawashi Keri or RoundHouse kick. I advise all student please study Mae Keri thoroughly. It is the only kick with mesmerizing simplicity, furious power, and most technical difficulty. Another point is, please maintain your centre of gravity and good weight balance during the execution of kick.
Number four Block/Uke: "There is no first attack in karate" but there is always block as first defence. And we all know powerful block is very effective as strikes are! For the blocks I will suggest students to understand how the block works and how it should be executed properly. Most of the students are not having an understanding of these key points. Please understand these things and train the muscle according block. I found **Mouli Nandi** having nice execution of block according to her belt.
Number five Strike/Uchi: In this portion students needs to be very concerned. Strikes like Uraken, Shuto Uchi, Empi Uchi are very important for close combat and distance combat. I find **Debangshu Chatterjee** (No 62) having a nice execution of Shuto Uchi.
Next Section is **Ido Kihons/Moving Basics**: To understand this section you need to understand all the basics and its combination. Regular understand the basics and creating its combination will always make you undefeatable in kumite which will last for long time. I found some student's brain are very active in this section. Remember Karate is a Martial art of intelligent people.
Kata/Form: As it was the first exam in Shubukan School for all of you. I Tried to make this exam easy, so that you can understand the essence of Okinawan Karate. We have lot of forms in our school. And all are effective in self defence in a nice way. So, dear students please be ready to learn more. Lot of katas you have in every kyu belt. Katas are beautiful element of karate and there is a saying 'Kata is the karate." So, Understanding of kata is important to handle various situation of self-defence. In our upcoming camp I am going to elaborate all the points about kata, including the Bunkai and Oyo of Okinawan karate kata.
Q&A: Question and answer is important to understand the culture and depth of karate. If you are not aware about all terms, there will be difficulty to understand the karate. Most of the students are not aware about these things. I find **Soumyadip Bannerjee** and **Mouli Nandi** is very good in this section according their belt.

1. Oishika Rana scored highest marks in the group appearing for Yellow Belt (9th Kyu)
2. Mouli Nandi scored highest marks in the group appearing for Orange Belt (8th Kyu)
3. Trishanjit Gan scored highest marks in the group appearing for Green Belt (7th Kyu)

AND ALL STUDENTS ARE PROMOTED TO THE NEXT RANK. But remember from next exam evaluation will be in more detail and only they will be promoted who deserve the rank.

Message to the guardian and students: Konnichiwa Minasan! To all members of Shubukan India, on the upcoming 21st ,22nd and 23rd June we are going to be trained for 3 times per day along with special theory session. It will be national level camp, where I myself and other instructor will train you in detail. There is only way to study martial arts, train as much as you can and gather all information in detail you need. So, I humbly request please engage in training camp as much as you can, as you all know there is marks on them also. We will be having special lesson on weapon training and self-defense in the camp. I wish to see you all in national camp.
